SERVING THE RAIL INDUSTRY WITH SPECIALTY WIRE & CABLE SOLUTIONS

Milrail offers an extensive portfolio of high performance rail solutions driven by a network of industry leading manufacturers. Our focus is on quality, safety and operational efficiency for car, locomotive, maintenance, signal and communication products. We can bundle our products with our value added services to offer our clients total turnkey solutions. Whether on car, locomotive, wayside or part of an OCS system, we have what you want meeting the specifications you need. All products meet current industry standards of transit authorities around the world. With 30 years of experience, we deliver it to you right the first time on time!

Wayside Product Lines:

- Signal, Power & OCS Wire & Cable
- Cable Protection Systems
- Splice Kits
- Fiber Optic Cable
- Fire-Resistant & LSZH Cables
- Heat Tracing Cables
- Signal & Return Power Bonds
- Track Drills & Tools
- Wire Identification and Labeling
- Terminals & Connectors
- Flexible Conduit Systems

Assembly, Kitting & Manufacturing

- Custom wire assemblies to customer’s drawings and specifications
- Optimized Kitting of parts for ease of installation
- Box stuffing
- Connectorization of cables for quick, low cost installation “Plug & Play”

Industry Standards & Certification

- Products Meet Current APTA, AREMA, AAR, IEEE & ASTM Standards
- ISO 9001:2015 and Certified Assemblers to IPC-A-620-B for Cable Assembly Work

Manufacturers

Milrail represents some of the finest manufacturers in North America and around the world. With these renowned manufacturers and our expert product support and value add ons, we have a winning team that makes Milrail your number one connection. Find the wire and cable solution you need at Milrail.

Products & Services

Wire & Cable

Our high-end wire and cable products such as rolling stock, power, signal, industrial, and custom cable are designed to withstand abuse from impact, abrasion, flexing, chemicals, and extreme temperatures.

Custom Assemblies & Kits

We build cable assemblies and wire harnesses to customer specifications, harness repair, cable rolling and respooling, kitting, and box stuffing for easy installation, and identification of components for a quick plug-and-play.

Cable Management & Protection

From our flexible conduit, wire identification, heat shrink, cleats and braided sleeves, we offer our clients total turnkey solutions with our cable management and protection products.

Cable Entries

We offer various types of cable entries, glands, strain relief, and frame kits for wire penetrations and cable pipe seals.

Connectors

We offer a broad range of electrical connectors for wire and cable applications.

Systems and Sensors

Our product offering includes industrial grade Weather Stations, flood sensors, LED lighting, heating pads and mats, junction boxes and sensors.

Tools

We supply a selection of rail tools, printers, crimpers, applicators, and catenary maintenance items for use in rail and transit applications.
